25X1A Approved For Release 2006/01/03: CIA-RDP82-00457R003700290001-3 25X1A CENTRAL INTELLIGENCE AGENCY CONFIDENTIAL April 1945 to September 1948 There was an airfield near ALAPAYEVSK (61°41'E/57°51'N) (Sverdlovsk Oblast), presumably south of the town. Twin-engine Douglas commercial aircraft landed and took off from this field twice a day on schedule. Individual biplanes were also seen. Comment: The existence of this airfield was reported for the first time. It probably is a civil airfield which is also used by the DOSAV. 25X1X Comment:

June 1945 to May 1946 There was a small airfield just east of NEVYANSK (60°14°E/57°30°N) (Sverdlovsk Oblast). Only a little flying with biplanes was observed at this field. 25X1A

25X1X

25X1X

This is the first report on an airfield near NEVYAMSK. Further information is required for a determination of the nature of the pilot school presumably located there.

25X1A

25X1

Comment: A new and very good sirfield was reported Located at Nevyansk in

25X1X

25X1X

5.

25X1A

May 1948 There was an airfield on the eastern edge of VERKHNYAYA TURA. Sverdlovsk Oblast (60°50'E/58°51'N), north of the Tura River. 8 3

25X1X

The field was about 3,300 feet square and had no buildings.

Some obsolescent aircraft mere stationed at this field in 10.0 May 1948.

25X1A

Comment:

The existence of this field was reported for the first time.*

25X1

Comment: Two airfields were reported within 4 km of Verkhnyaya Tura in June 1948.

2006/01/03 · CIA-RDP82-00457R003700290001-3 Approved For Release

Approved For Release 2006/01/03 : CIA-RDP82-00457R003700290001-3 25X1 25X1A . CENTRAL INTELLIGENCE AGENCY -3 -25X1X January 1948 A Turge wirfield was being leveled about 1,300 feet west of the KRASNO-TURINSK (60°12°E/59°46°N) aluminum plant. In east-west runway 3,300 feet long was completed. 25X1X Comment: The construction of an airfield with a reinforced runway near KRASIN-TURINSK seems credible with regard to the aluminum plant nearby. However, further information is required to consider this field as confirmed. 25X1A
